Carrie Benvenuti

*Fine Silver Jewelry Designed and Made
by Carrie Benvenuti*

Carrie Benvenuti has been developing her jewelry line since 1990. Most of her early training started in 1978 through family artisans. In addition to her ever-expanding line of jewelry, she also works with a wide range of materials, such as sterling, copper, PMC, polymer, leather, hand-cut gemstones, and beach glass, her work has been described as

Southwestern, Contemporary, and Organic. She is a Certified PMC Artist, and also offers private lessons in her studio. She has lived in the Southwest most of her life and

receives most of her inspiration from the diverse cultures and history of the land.

"I believe that there is a natural order to the world and that everything is connected. And it is this connection and order which governs the dynamics behind nature's own creative process - this often inspires research and

development of new technologies." C.B. Precious Metal Clay (PMC), while derived from this technology, provides the feel of working with an organic compound. Combined with glass and semi-precious stones, her fine silver creations reflect the textures and colors of the living world around us. Carrie also provides Hand Woven Chair Caning for Antique Chairs.

"It is my wish that you enjoy these treasures as much as I have while creating them." C.B.
