

Myra Gadson as Tierra y Luz Studio

Myra Gadson established Tierra y Luz Studio (TyL) in scenic Placitas, New Mexico featuring hand-made custom jewelry with an earthy yet modern look. Myra is retired from a 25 year engineering career and has been designing and hand crafting jewelry for the past decade.

Her jewelry designs are unique and include extraordinary gemstones from around the world and in our own backyard. Myra's designs vary from the classic to trendy incorporating some aspects of our southwestern motif.

While her design styles vary to span the tastes of several generations, much of the Tierra y Luz jewelry collection has a common theme, the spiral symbol. The TyL spiral can be interpreted as the journey of life; spirals have been known to enhance one's spiritual journey.

All beads and findings in the TyL jewelry collection are .925 sterling silver and/or 14 Kt gold filled.

You will find beautiful and unusual Bali clasps and beads throughout the TyL collection. Myra welcomes custom jewelry orders.
