## Wanda Kippenbrock

Wanda Kippenbrock's imaginative work expresses a strong sense of design, composition and delicate facility.

A simple philosophy governs her art: work only with joy, in the beauty of the world around us, in the positive! Finding beauty in all of nature, she transforms floral art into virtuoso displays while her landscapes fill one with vibrant stillness. Wanda believes that in nature there is perfect harmony and composition and by studying and experiencing nature one achieves an innate sense of design and life's true balance. These thoughts are reflected in each of her paintings.

A native Texan, with education and experience in floriculture and horticulture, as well as art, Wanda has an intimate knowledge of flowers. Through years of painting and floral design, she has created a style completely her own. Using oil paints on fine linen, her paintings convey a sense of vibrancy and awakening.
