Kate & Morten Nilsen

Kate learned the weaving craft while she studied & worked in Scotland from 1975 to 1979. She became a full time weaver after she moved to Taos in 1981. She worked for a year as a production weaver of rugs at Twining Weavers in Arroyo Seco, NM before she focused on her own clothing designs. She has established herself as a master of color blends, graceful designs & the quality of the fabric that she creates. She bases her vivid color combinations on the stunning natural beauty of Northern New Mexico that has been the inspiration for weavers over hundreds of years.

Kate & Morten Nilsen

In January 2004 Kate's husband, Morten, joined her in the weaving studio and he has added to the quality & care of their products through his knowledge of looms & other weaving equipment. Morten's attention to the technical aspects of the weaving process adds quality & consistency to their products. The results are fabrics that feel & look great. Kate & Morten are currently producing mobius shawls, ruanas, ponchos, scarves & vests. They travel to many shows throughout the southwest.

Most of their garments can vary as to their fiber content & are woven with a mixed warp that contains rayon chenille, cotton, bamboo, & rayon boucle for texture. In some cases they make garments that are 100% rayon chenille & others are 100% rayon boucle. The rayon boucle is a very nice weight for the warmer months.
